

# Cacao-Conference Elewijt – 24. Mai 2011

## Workinggroup 5

### Labels and Certificates:

How to respond to companies?

- Are all Labels effective?
- Is the communication of the plants for the purchasing of effective cacao enough?  
How can the CSR politic be questioned?
- How can we use the certification of the commodities for our Trade Union work in the plants and external?

The members receive procedure documentation to be able to discuss the questions.

As introduction into the topic we have an overview in power point of the most important Labels from the cacao sector at the moment.
